ABOUT

In 2013, Safe Communities Coalition of Hunterdon and Somerset partnered with Hunterdon County Prosecutor's Office, and Hunterdon County Chief's Association to create **S.T.A.R.T. (Steps To Action Recovery and Treatment)**.

First launched for First Responders to provide to overdose survivors and loved ones as a tool to bridge the treatment gap and prevent additional overdose,

START has since become a symbol of reliable resources and information in our community.

In 2021, Safe Coalition partnered with Hunterdon Medical Center and their Residents to develop a tool for healthcare providers to help patients succeed in recovery from substances.

RESOURCE FOR RECOVERY

START

STEPS TO ACTION RECOVERY & TREATMENT

safecoalition.org/start

Resource to help individuals and families succeed in substance use recovery.

OVERDOSE PREVENTION

New Jersey's Overdose Prevention Act (2013) & 911 Lifeline Legislation (2009) were passed to encourage people to report overdoses without fear of being arrested.

1. Call 911
2. Stay with the person overdosing
3. Speak to authorities when they arrive

Under the law, those who follow these steps will be immune from arrest and prosecution for drug possession. The law also applies to the person overdosing.
